

PUSH BRIDGE

Ableton Push 1 for Logic Pro | v1.0.0 RC1

SESSION

NOTE

SMART

VISUALS

1. INSTALL

- 1 Drag IOs Push Bridge.app to /Applications
- 2 Connect Ableton Push 1 by USB
- 3 Open /Applications/IOs Push Bridge.app
- 4 Press User on Push 1
- 5 Optional: menu-bar app > Launch at Login

2. FIRST LAUNCH

System Settings > Privacy & Security > Accessibility
Enable IOs Push Bridge, then restart the app.

Accessibility is used only for native Logic helpers such as arrows and encoder zoom. Pads, notes, LEDs, and display feedback use MIDI.

3. LOGIC SETUP

Session / Live Loops:

Control Surfaces > Setup > add Launchpad-style device

Input IOs Push Bridge To Logic

Output IOs Push Bridge From Logic

Instruments / Note Mode:

Record-enable a software instrument track

Input IOs Push Bridge Notes To Logic

Optional learned controls:

4. ESSENTIAL CONTROLS

Session	Logic Live Loops grid
Note	instruments, scales, chords
Device	Smart Controls
Play/Record	Logic transport
Tap Tempo	tempo tap
Metronome	click on/off
New	new track
Arrows	track up/down, timeline left/right
Stop	panic / all notes off

5. NOTE MODE

Pads follow selected root and scale.

Scales opens Scale Select.

Encoders 1-4 in Scale Select:

root, scale, chord mode, voicing.

Browse toggles Progression Mode.

Top row selects progression banks.

Add Effect cycles chord type.

Shift + Add Effect cycles voicing.

Repeat, Accent, Select, and Automation shape feel.

6. MIXER / SMART / VISUALS

Volume	selected-track volume page
Pan & Send	pan, send 1, send 2
Track	track mixer page
Master	master volume page
Device	encoders 5-8 as Smart Controls

Standby Visual menu:

IO Build, IO Wordmark, Clock, Life,

Binary Clock, Sierpinski, Coherence Pulse, Bit Shift.

TROUBLESHOOTING

Push says Please start Ableton

Make sure IOs Push Bridge is running, then press User.

Pads light but Logic does not respond

Check Logic ports:

To Logic / From Logic for Session mode.

Notes do not play

Record-enable a software instrument track and use
IOs Push Bridge Notes To Logic.

Mixer does not move

Map controls in Logic Controller Assignments using
IOs Push Bridge Controls To Logic.

Zoom or arrows fail

Grant Accessibility and restart IOs Push Bridge.
